BHAVESH S.

Senior Ruby on Rails Developer

Phone No: +919685555280   **Email Id:** salujabhavesh24@gmail.com   **Address:** Indore, Madhya Pradesh, India
DOB: 24-08-1996

Results-driven Senior Ruby on Rails Developer with 7+ years of experience in full-stack web development, seeking to leverage expertise in building scalable applications and optimizing cloud infrastructure to drive innovation and efficiency in the Information Technology sector. Aiming to deliver high-performance solutions and provide mentorship within a collaborative agile environment.

PROFESSIONAL SUMMARY

- 7+ years of experience in full-stack web development, specializing in scalable, high-performance Ruby on Rails applications.
- Expertise in RESTful & GraphQL API development, database optimization (PostgreSQL, MySQL), and cloud-based deployments (AWS, DigitalOcean).
- Proficient in DevOps practices including Docker, CI/CD pipelines, and automation tools (Kamal, Heroku).
- Improved backend response time by 40% through scalable Ruby on Rails solutions and optimized database queries.
- Reduced API failures by 40% through third-party API integrations and optimized operations.
- Optimized AWS cloud deployments, reducing infrastructure costs by 20% while improving scalability and security compliance.
- Integrated Stripe and Twilio, reducing payment processing errors by 30% and improving system reliability.
- Mentored junior developers, resulting in a 25% decrease in code review turnaround time and improved team performance.
- Led the development of 'MyServe', a scalable service management platform, optimizing API performance by 40% and improving system scalability.
- Achieved 40% improvement in PostgreSQL performance by optimizing complex SQL queries.

SKILLS

Technical Skills: Ruby on Rails, RESTful APIs, GraphQL, PostgreSQL, MySQL, AWS, Docker, CI/CD, JavaScript, RSpec, React, Kubernetes

Core Competencies: Full-Stack Development, API Design & Integration, Cloud Infrastructure Management, Database Optimization, Agile Methodologies

Soft Skills: Mentoring, Communication, Problem-solving, Collaboration, Adaptability

WORK EXPERIENCE

Senior Ruby on Rails Specialist
DMI
Aug 2024 - Feb 2025

Collaborated cross-functionally with frontend, QA, and product teams driving the delivery of high-quality features. Mentored 4+ junior developers, resulting in a 25% decrease in code review turnaround time and improved team performance.

- Engineered scalable Ruby on Rails solutions, resulting in a 40% improvement in backend response time and enhanced user satisfaction.
- Integrated third-party APIs, decreasing API failures by 40% and optimizing operational efficiency.
- Optimized database queries, reducing response times by 30%.

Achievements:
- Improved backend response time by 40% through the development of scalable Ruby on Rails solutions to improve user satisfaction and system reliability.
- Reduced API failures by 40% by strategically integrating third-party APIs and optimizing their operations.

Senior Software Engineer
Bacancy Technology
May 2022 - Jul 2024

Refined system architecture and implemented new technologies to maximize efficiency. Led onboarding and mentorship programs for new hires cultivating a robust development culture.

- Engineered and maintained a high-availability purchasing platform processing over 10,000 transactions per month, achieving a 99.98% uptime.
- Developed purchase order management features using Ruby on Rails, streamlining and optimizing workflows.
- Integrated Stripe, Twilio, and AWS services to enhance system reliability and functionality.

Achievements:

- Reduced payment processing errors by 30% through strategic integration of Stripe, Twilio, and AWS services.
- Improved system stability through diligent bug resolution minimizing downtime.

Senior Ruby on Rails Developer (Freelancer)
Rentola

Mar 2020 - May 2022

Provided guidance to junior developers, driving increased team efficiency and facilitating extensive knowledge-sharing.

- Engineered and deployed scalable backend solutions, enhancing overall system reliability and performance.
- Developed RESTful and GraphQL APIs for streamlined data flow and high availability.
- Strengthened authentication, authorization, and data security practices.

Achievements:
Reduced infrastructure costs by 20% through AWS cloud deployment optimizations, enhanced scalability, and improved security compliance.

Ruby on Rails Developer
Bestpeers Infosystem Pvt Ltd

Feb 2018 - Mar 2020

Conducted code reviews to uphold high coding standards and best practices.

- Developed and maintained 15+ RESTful APIs utilized by 3+ frontend teams, ensuring seamless service integration.
- Managed PostgreSQL and MySQL databases, ensuring data integrity and optimal performance.

Achievements:
Enhanced data synchronization speed by 50% across services through API development and optimization.

EDUCATION

Bachelor in Information Technology
SD Bansal College of Technology
(Jun 2014 - Jun 2018)

ACHIEVEMENTS

- Reduced API Testing Costs by 80% by integrating the VCR gem to record and replay external API responses during test suites; eliminating redundant API calls to paid services.
- Improved PostgreSQL Performance by 40% by optimizing complex SQL queries, reducing overall system load and improving database efficiency.
- Saved 90% in Processing Time by implementing Sidekiq background jobs to automate high-volume data operations, cutting processing time from 5 hours to 30 minutes.
- Reduced Cloud Storage Costs through file compression, archival strategies, and optimized file lifecycle management to improve cloud resource utilization.
- Increased Application Speed by identifying and resolving N+1 query issues, optimizing database interactions, improving page load times, and enhancing user experience.

Projects

MyServe - Service Management Platform
- MyServe - Service Management Platform, Lead Developer
- Architected a scalable service management platform to optimize service-based business operations.
- Constructed a modular Ruby on Rails backend infrastructure, ensuring efficient request handling and enhanced database performance.
- Integrated dynamic pricing and discount features.
- Automated real-time invoice generation.
- Engineered a user dashboard for service order tracking and management.

NXZSound - Music Streaming API
- NXZSound - Music Streaming API, RESTful API Developer
- Developed RESTful APIs for seamless music content management.
- Implemented a scalable Ruby on Rails backend infrastructure.
- Integrated Stripe for secure payment solutions.
- Incorporated Twilio for real-time user engagement.

Procurement Express - Purchase Order Automation
- Procurement Express - Purchase Order Automation, Backend Developer
- Developed and maintained the backend infrastructure to automate the purchase order process.
- Addressed critical bugs for a streamlined user experience.
- Contributed to team collaboration and code quality standards.
- Optimized performance for enhanced responsiveness.

Hobbies

Travelling, Cooking, Technology

LANGUAGES

English, Hindi
